

Central Jersey Genealogical Club

MONTHLY MEETING

DATE: March 13, 2018

TIME: 7:00 PM

SPEAKER: Cathy Ivins

TOPIC: Genetic Genealogy: DNA for
Newbies, Wannabes & Crackerjacks

DNA can boost your family tree research, break through a brick wall, and help find biological families. Our speaker will take us step by step in determining the right test and testing company for our needs, decoding the mysterious results, using third-party tools, and creating skeleton trees to link to our DNA as "cousin bait." Whether you are a NEWBIE and need help understanding your results and what to do with them, a WANNABE curious what DNA can do for you, or a CRACKERJACK that can share your knowledge and experience during the program, we hope to see you on March 13th.

Cathy Ivins is a charter member of Bucks Co Genealogy Society as well as its Director of Publicity for the last three years. An Instructional Assistant for the Bristol Township School District by day, she has been researching her family history for over 12 years. Cathy completed the Practical Genetic Genealogy course at the Genealogical Research Institute of Pittsburgh, taught by CeCe Moore and Blaine Bettinger, as well as Fundamentals of Forensic Genealogy, taught by Michael Ramage and other experts in the field. Cathy has benefited tremendously from DNA testing and hopes to encourage others to "give a spit!"

PLACE: Hamilton Township Library

1 Justice Samuel A. Alito, Jr. Way (old name: Municipal Drive)
(Off White Horse-Mercerville Road behind the Hamilton Police Station)
Hamilton, New Jersey 08619

Visitors are always welcome
